

Pesticide Residue Monitoring Program Reports and Data

Annual reports have been prepared to summarize results of the U. S. Food and Drug Administration's (FDA) pesticide residue monitoring program since 1987. Reports from Fiscal Years (FYs) 1987 to 1993 were published in the Journal of the Association of Official Analytical Chemists/Journal of AOAC International.

The FY1993 and FY1994 reports were published in the journal and also made available on the web. The report for FY1995 and all subsequent reports are available only from the web. Beginning in FY1996, the data used to prepare the annual pesticide report and some additional statistical analyses of the data are also available with each report.

Listed below are links to the annual reports and data published from 1993 to the present. Each report is available in the format used at the time it was written.

For additional information or to send comments, contact Sara McGrath, Sara.McGrath@fda.hhs.gov (<mailto:Sara.McGrath@fda.hhs.gov>).
