Explore the new CAS BioFinder Discovery Platform

Move your drug discovery program through each phase quickly with access to life sciences data and a new solution.

[Learn more](#)

CAS SciFinder Discovery Platform™

Accelerate breakthroughs and get discoveries to market faster using best-in-class scientific solutions throughout the innovation journey.

[Explore the CAS SciFinder Discovery Platform](#)

STN IP Protection Suite™

From new users to expert searchers, accelerate your innovation journey with IP insights that save time and money.

[Explore the STN IP Protection Suite](#)

CAS Custom ServicesSM

Partner with CAS to customize solutions for your unique business and R&D challenges with our content, technology and expertise.

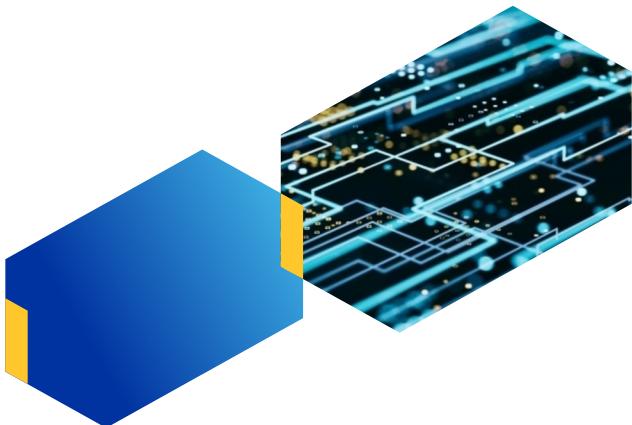

[Explore CAS Custom Services](#)

Cultivating critical biomaterial trends from scientific literature

Focusing on cutting-edge scientific research, Westlake University sought to partner with an organization rich in scientific knowledge expertise and state-of-the-art data analytics capabilities.

[Read the case study](#)

CAS Data

Curated scientific knowledge to power discovery

High-quality data is the lifeblood of today's digital R&D pipeline. Every day, our scientists curate, connect, and analyze the valuable data disclosed in scientific publications from around the world to build the CAS Content Collection™, covering over 150 years of discoveries.

Our data underpins all CAS Solutions and can be licensed for machine learning or in-house workflow integration. Our scientists also support custom data curation projects through CAS Custom Services.
